Design Firm Name: City of Reno
Construction Contractor: Sierra Nevada Construction
Contractor Phone: (775) 335-0420

Project Description & Purpose

This project includes the replacement of 60 to 80 year old sanitary sewer pipes. During the utility assessment phase of the design process it was determined by Truckee Meadows Water Authority (TMWA) that the replacement of deteriorated water pipes would also be necessary.

City and TMWA staff have worked together to provide the construction plans and documents for the replacement of approximately 5,000 linear feet of 8-inch diameter sewer main and approximately 3,200 linear feet of 6-inch diameter water main. Combining the sewer and the water into one project will have a greater potential to reduce the impacts to the public and the overall cost of construction.

Latest News September 2015

Sewer pipe installation and the temporary asphalt patching of the streets for this project is complete.

City of Reno design engineers have started the roadway improvement plans for this area and will be bringing an update to the Ward 5 Neighborhood Advisory Board on December 8th, 2015.

Project Schedule

Design Completion: February 2015
Advertise: February 20, 2015
Bid Opening: March 12, 2015
Council Award: April 15, 2015
Construction Start: May 11, 2015
Construction Complete: August 2015

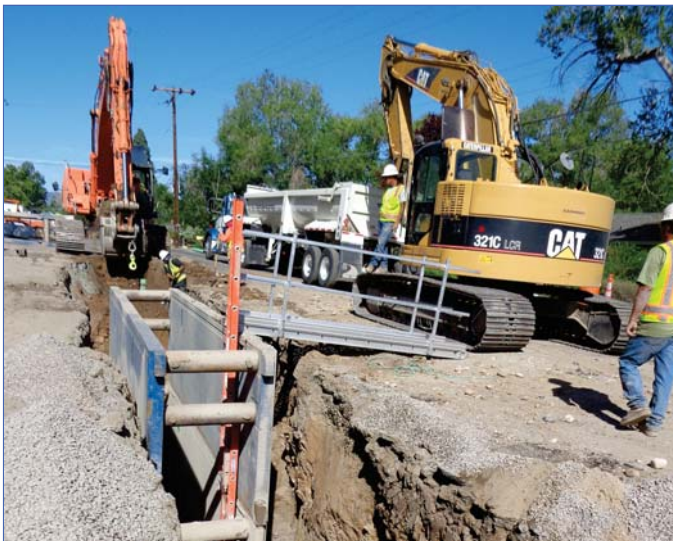

Construction Costs/Funding Sources

Funding Source: Sewer Enterprise Fund (User Fees)
TMWA has agreed to reimburse the City of Reno for the cost of the water main work in this area.

Bid Award: \$3,014,007.00

Construction Traffic Control

For current traffic control information please see the City of Reno's weekly Road Closures.
